

Namito Yokota

I write clean code with a smile.

EXPERIENCE

Software Engineer II @ Venminder, Remote

December 2022 - Present

Responsibilities

- Responsible for leading a new frontend project generating 60% of total revenue
- Develop new features and maintain existing code using the Aurelia framework
- Collaborate with UX Designers and Product Managers to analyze future stories
- Follow the Agile development process with a team of 5 full-stack developers
- Tools used: Aurelia, TypeScript, HTML, SCSS, Azure, AWS, and Jira

Deliverables

- Added capability to dynamically generate HTML page into a PDF format
- Integrated an autosave interface with debounce mechanism using RxJS

Cloud Application UI Developer @ Hexagon, Madison AL

January 2021 - November 2022

Responsibilities

- Developed and managed new and existing UI for the HxGN Connect product
- Maintained 42 packages serving as micro-frontend services for the main product
- Followed the Agile Methodology workflow with a team of 25 developers
- Tools: Angular, TypeScript, HTML, SCSS, and Azure

Deliverables

- Built an internal load test tool to analyze the product performance under stress
- Created a language translation interface with TypeScript for web and mobile
- Implemented an admin page for storage backup and restore capability
- Utilized Azure Map Service APIs to enable reverse geocoding incident locations
- Designed a shared dialog for displaying organization's notable change log

Web Development Intern @ Trips4Trade, Tuscaloosa AL

September 2019 - January 2020

Responsibilities

- Improved the UI and data storage for Trips4Trade platform using WordPress
- Tools: WordPress, Kinsta, HTML, CSS, and PHP

EDUCATION

Bachelor of Science in Computer Science

University of Alabama - 3.52 GPA

August 2017 - December 2020, Tuscaloosa Alabama
